

SPRING'24 ELECTIVE DESIGN STUDIO

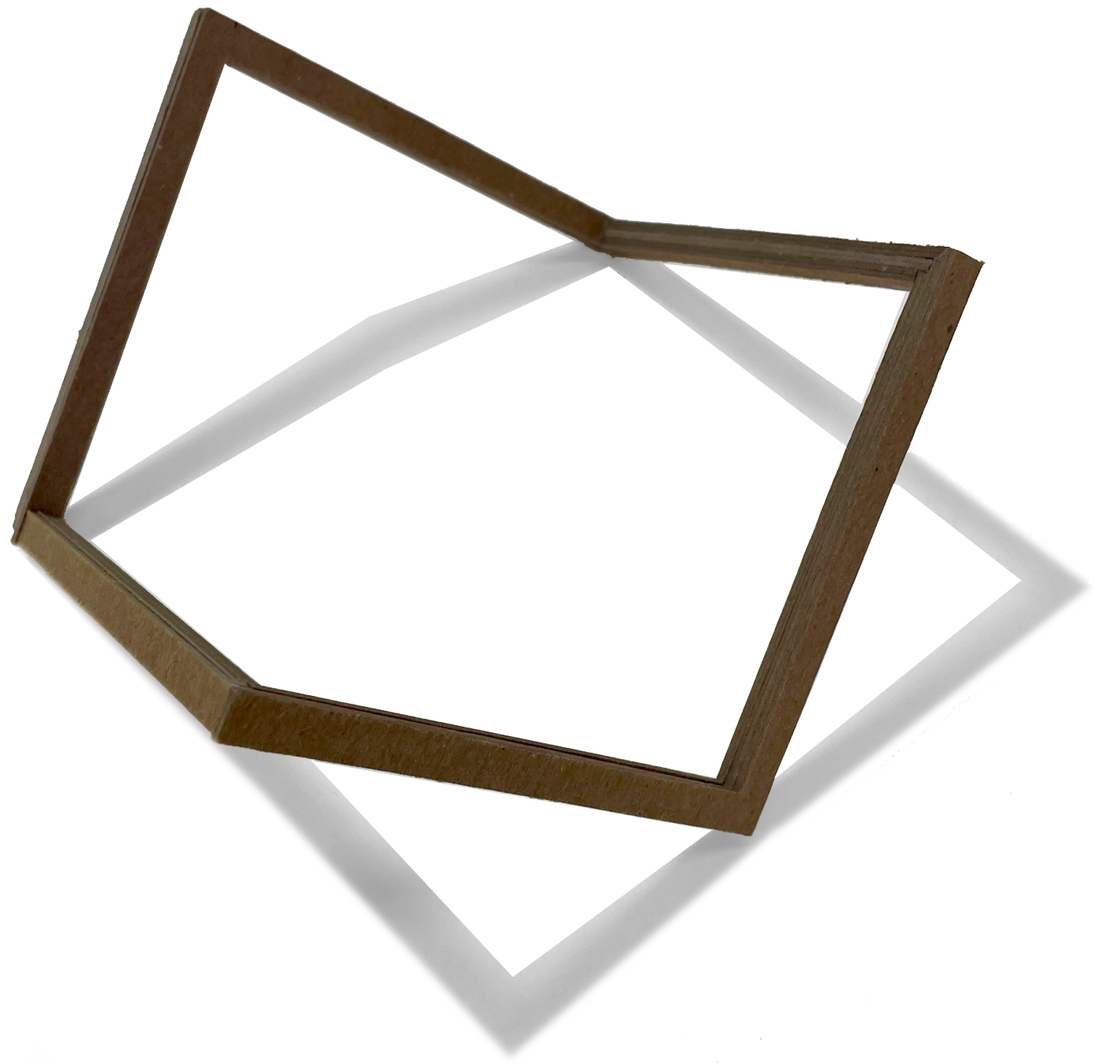

SPRING 2024

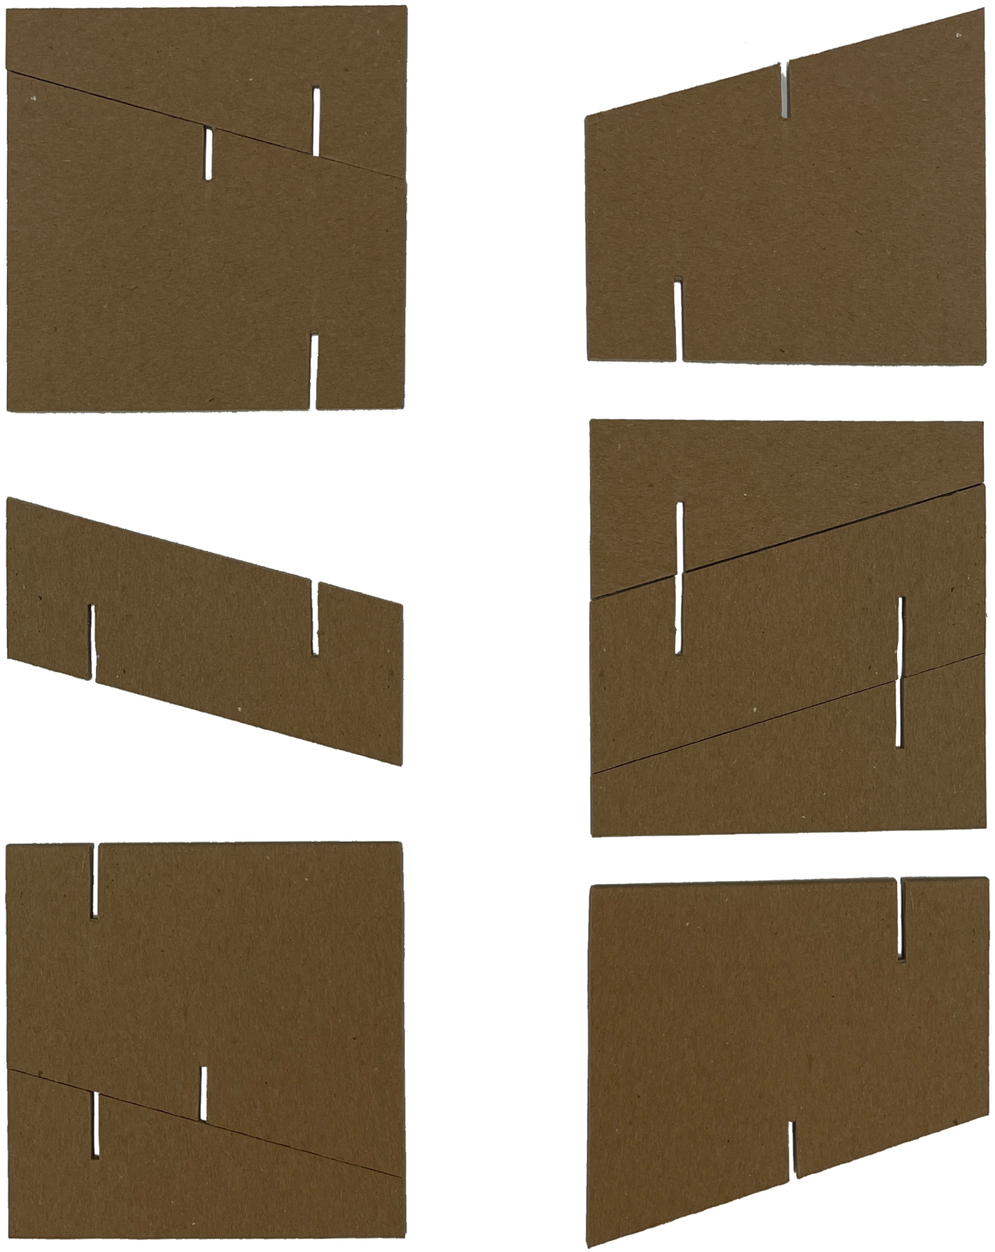

ARCH 1104 is an immersive and rigorous course, intended for students with declared minor in Architecture or those otherwise interested in the field. It provides exposure to architectural ideas, principles and methods with guided explorations of architectural concepts, typologies, precedents, and a sequence of creative design projects in visualization and space-making through the development of structure and form.

The carefully curated curriculum is rooted in making and thinking through making, as well as the critical analysis of architecture and learning from our immediate and broader contexts. [6 credits]

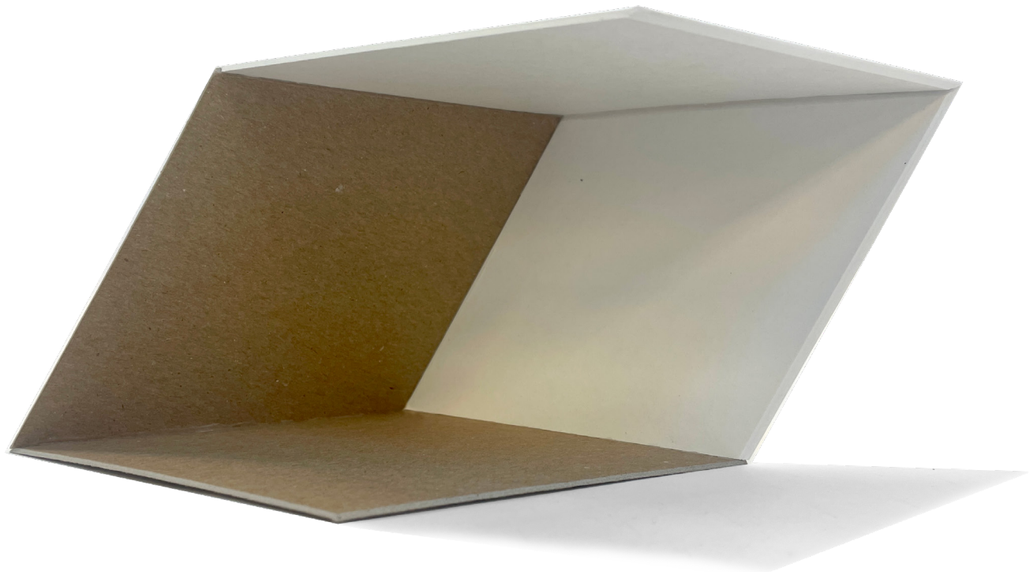

Cornell **AAP** ARCH 1104 | **INTRODUCTION TO ARCHITECTURE STUDIO**| Faculty: **Luben Dimcheff** TA: **Christopher Rouhi**
